REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the claims are allowable over prior art of record, because none of the references in alone or in combination discloses:

+++ A light source having laser diode modules comprising a plurality of laser diode modules, at least one of said laser diode modules having an optical power of at least 300 mW, as discloses in claims 1 and 2.

+++ A light source having laser diode modules comprising a plurality of laser diode modules, said plurality of laser diode modules being thermally connected to a plate type heat pipe, as discloses in claims 6 and 7.

The underline limitation in claims 1 and 2 are critically, since the light source is improved, having the laser diode module having a power at least 300 Mw.

The underline limitation in claims 6 and 7 are critically, since the light source is improved, reducing various optical components and various electronic component, and having a light-excitation light source or an optical-signal light source, which is mounted on a heat sink having excellent heat dissipation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
